

The page features a decorative arrangement of seven circles. Three circles are solid light purple, and four are hollow with a light purple outline. They are arranged in two rows: three in the top row and four in the bottom row. The text is centered horizontally between the two rows.

INTERNET EXPLORER 6 SETTING

By (n) Code Solutions.

Check whether Date and Time are appropriate or not.

Date and Time Properties

Tabbed interface with 'Date & Time', 'Time Zone', and 'Internet Time' tabs. The 'Date & Time' tab is active, showing a calendar for September 2010 and a digital clock displaying 11:33:23 AM. Below the calendar, it states 'Current time zone: India Standard Time'. At the bottom are 'OK', 'Cancel', and 'Apply' buttons.

Date

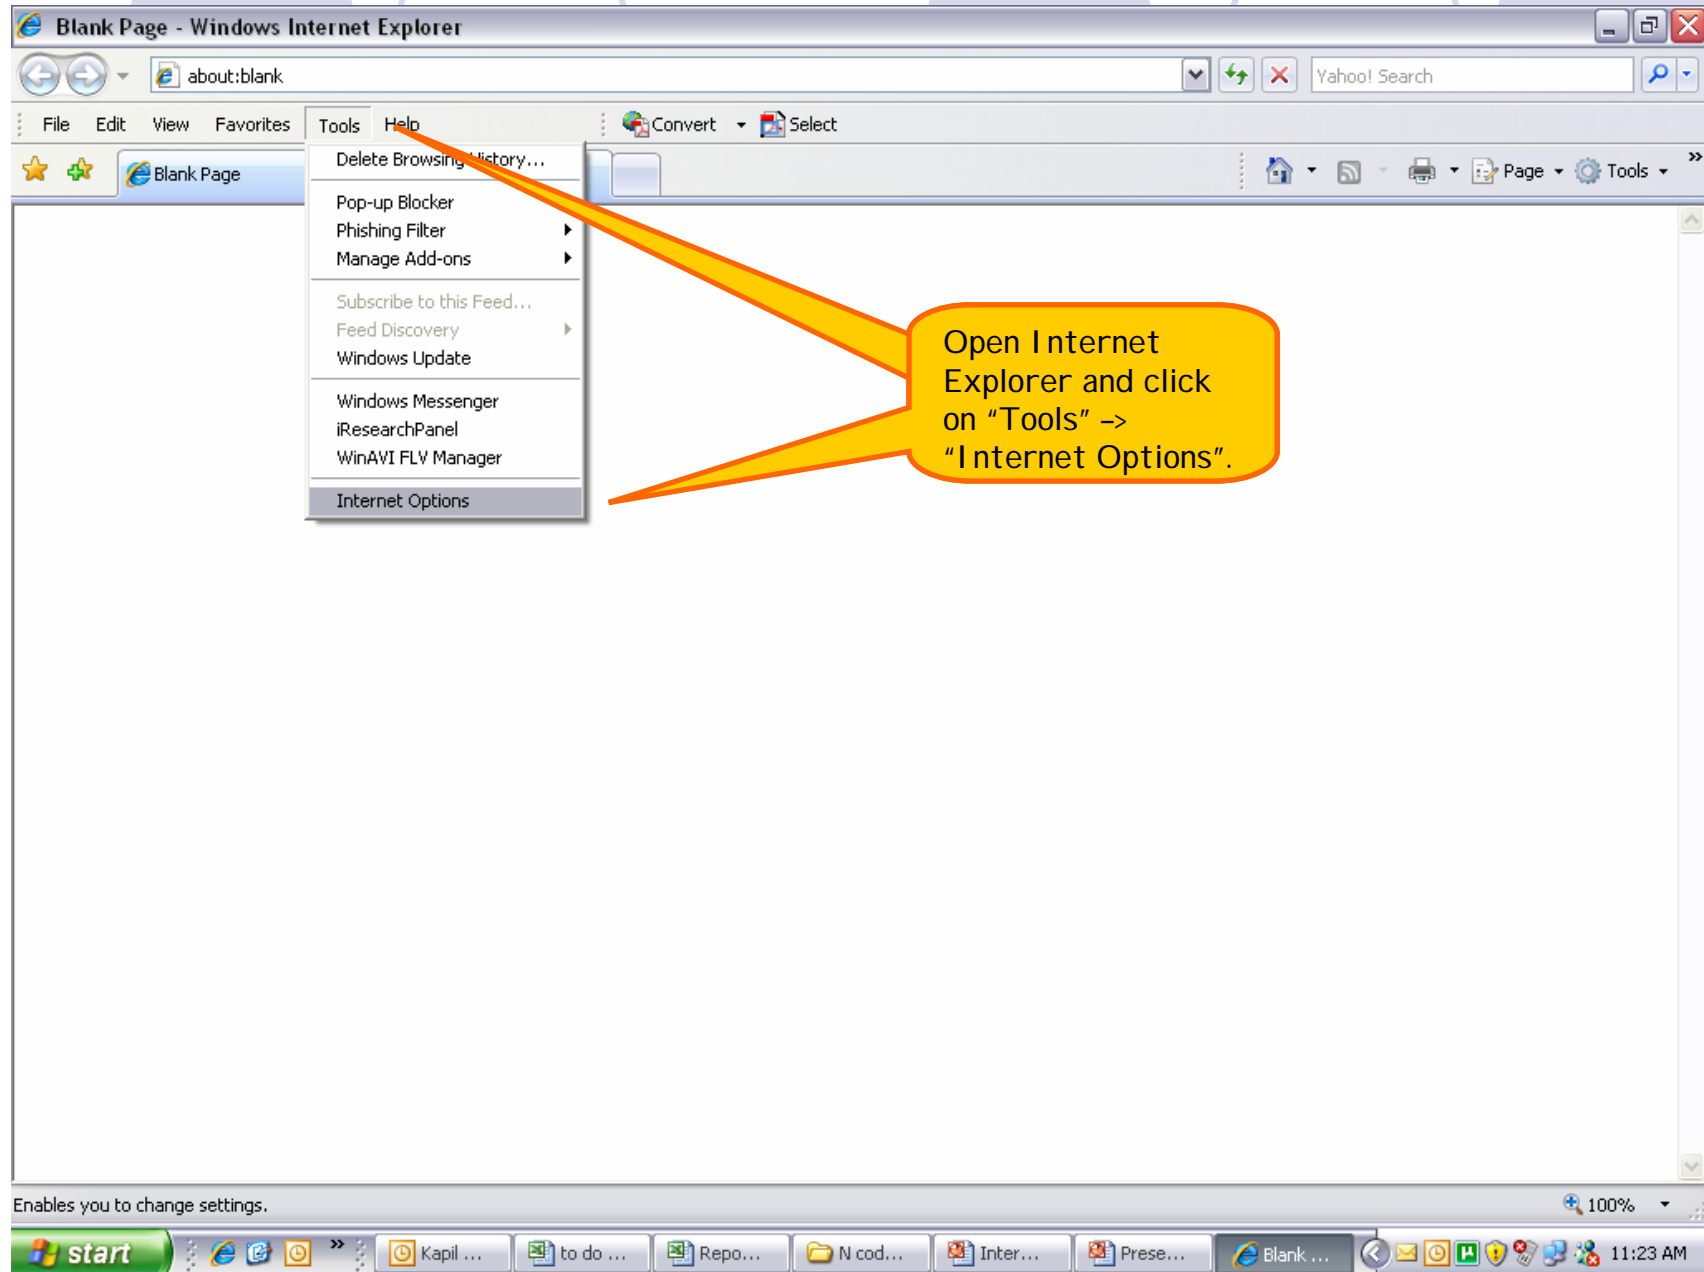

September 2010

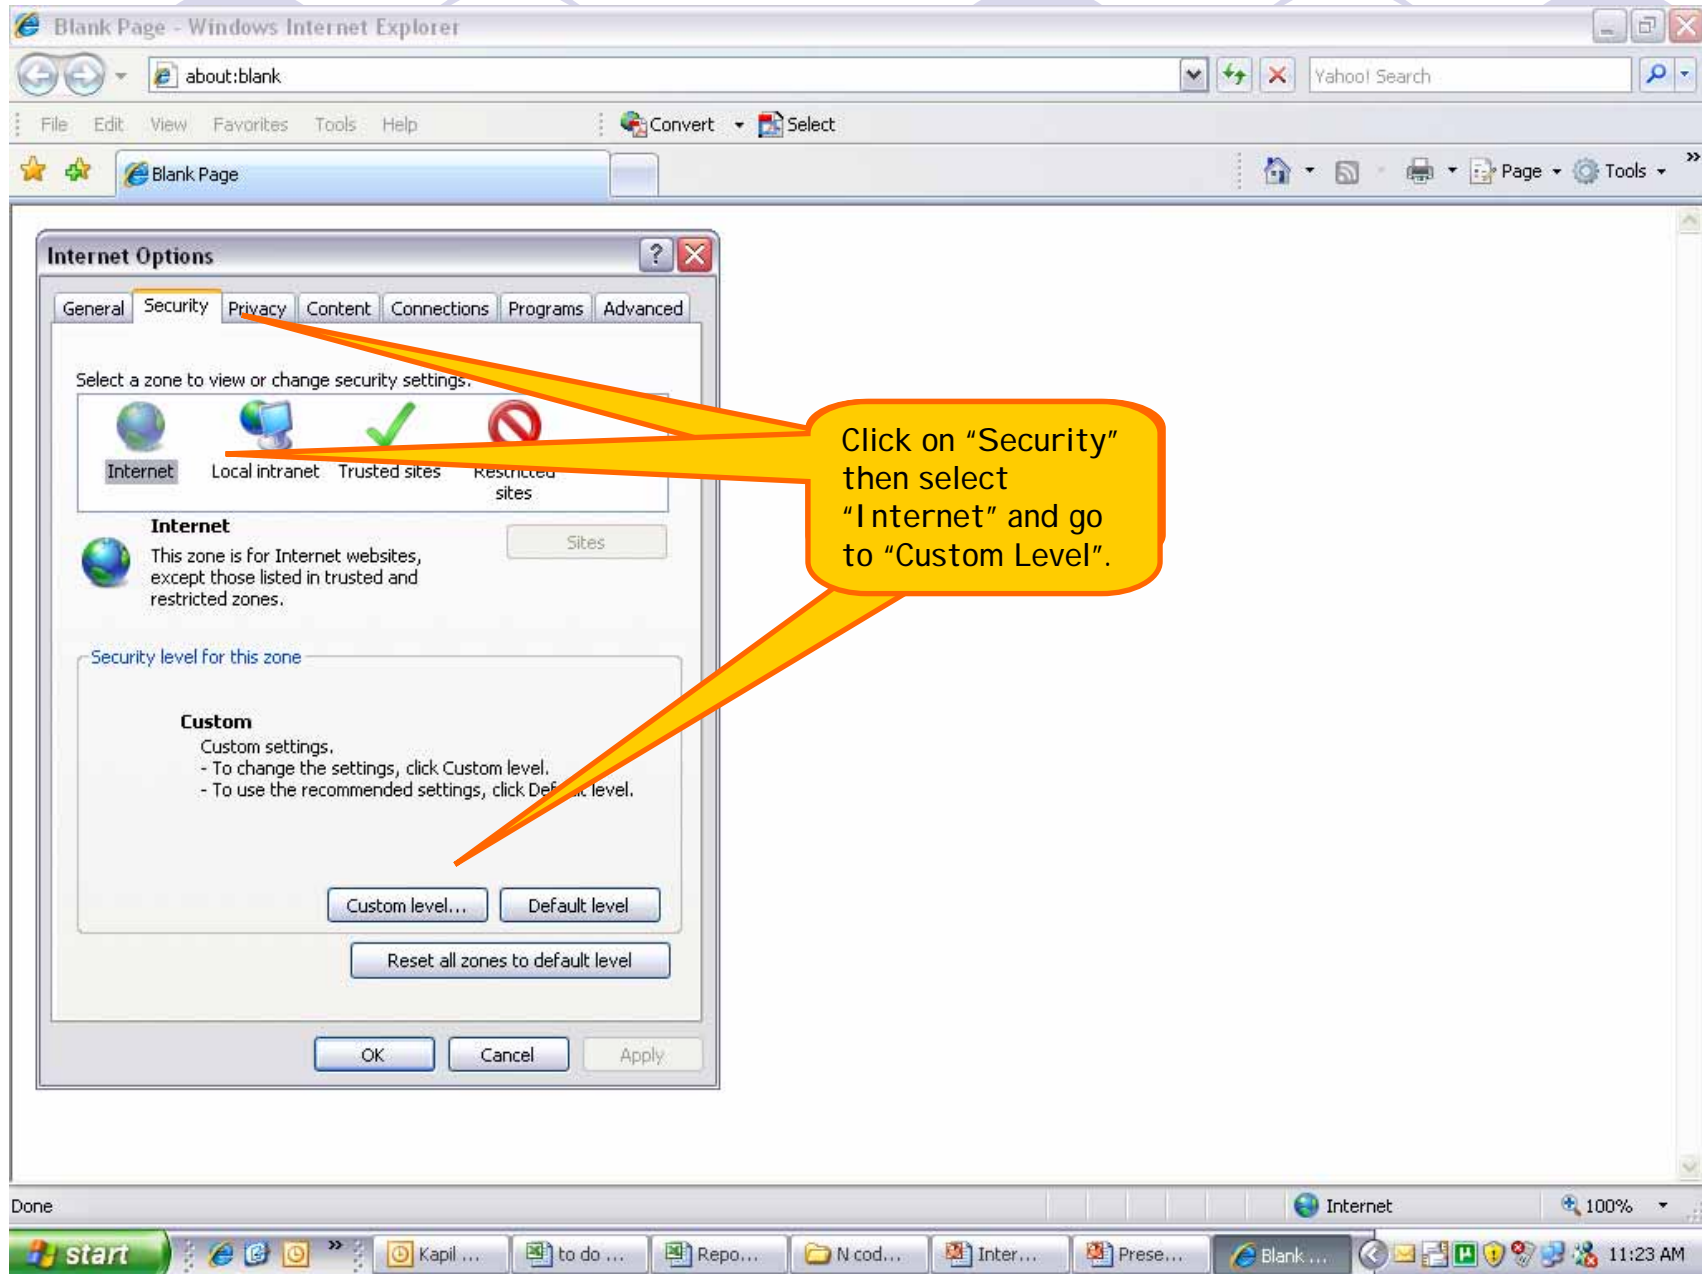

S	M	T	W	T	F	S
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30		

Time

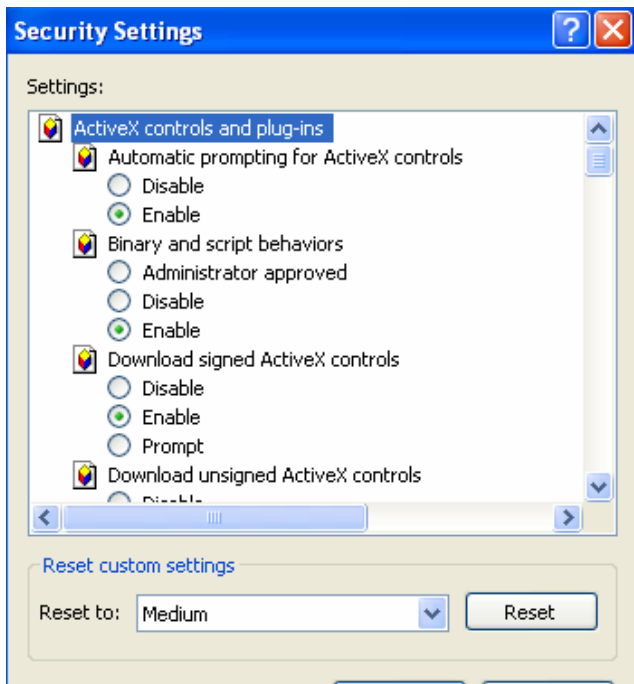

11:33:23 AM

Browser Settings for Internet 6...

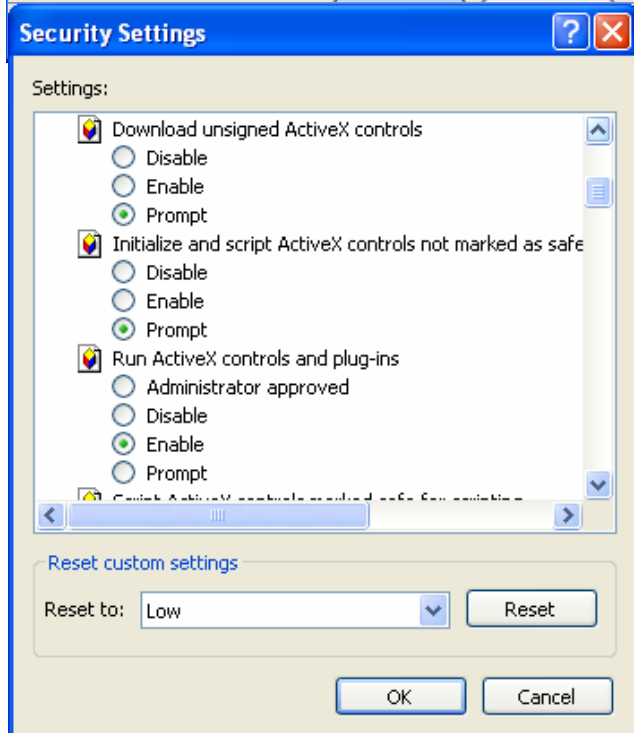

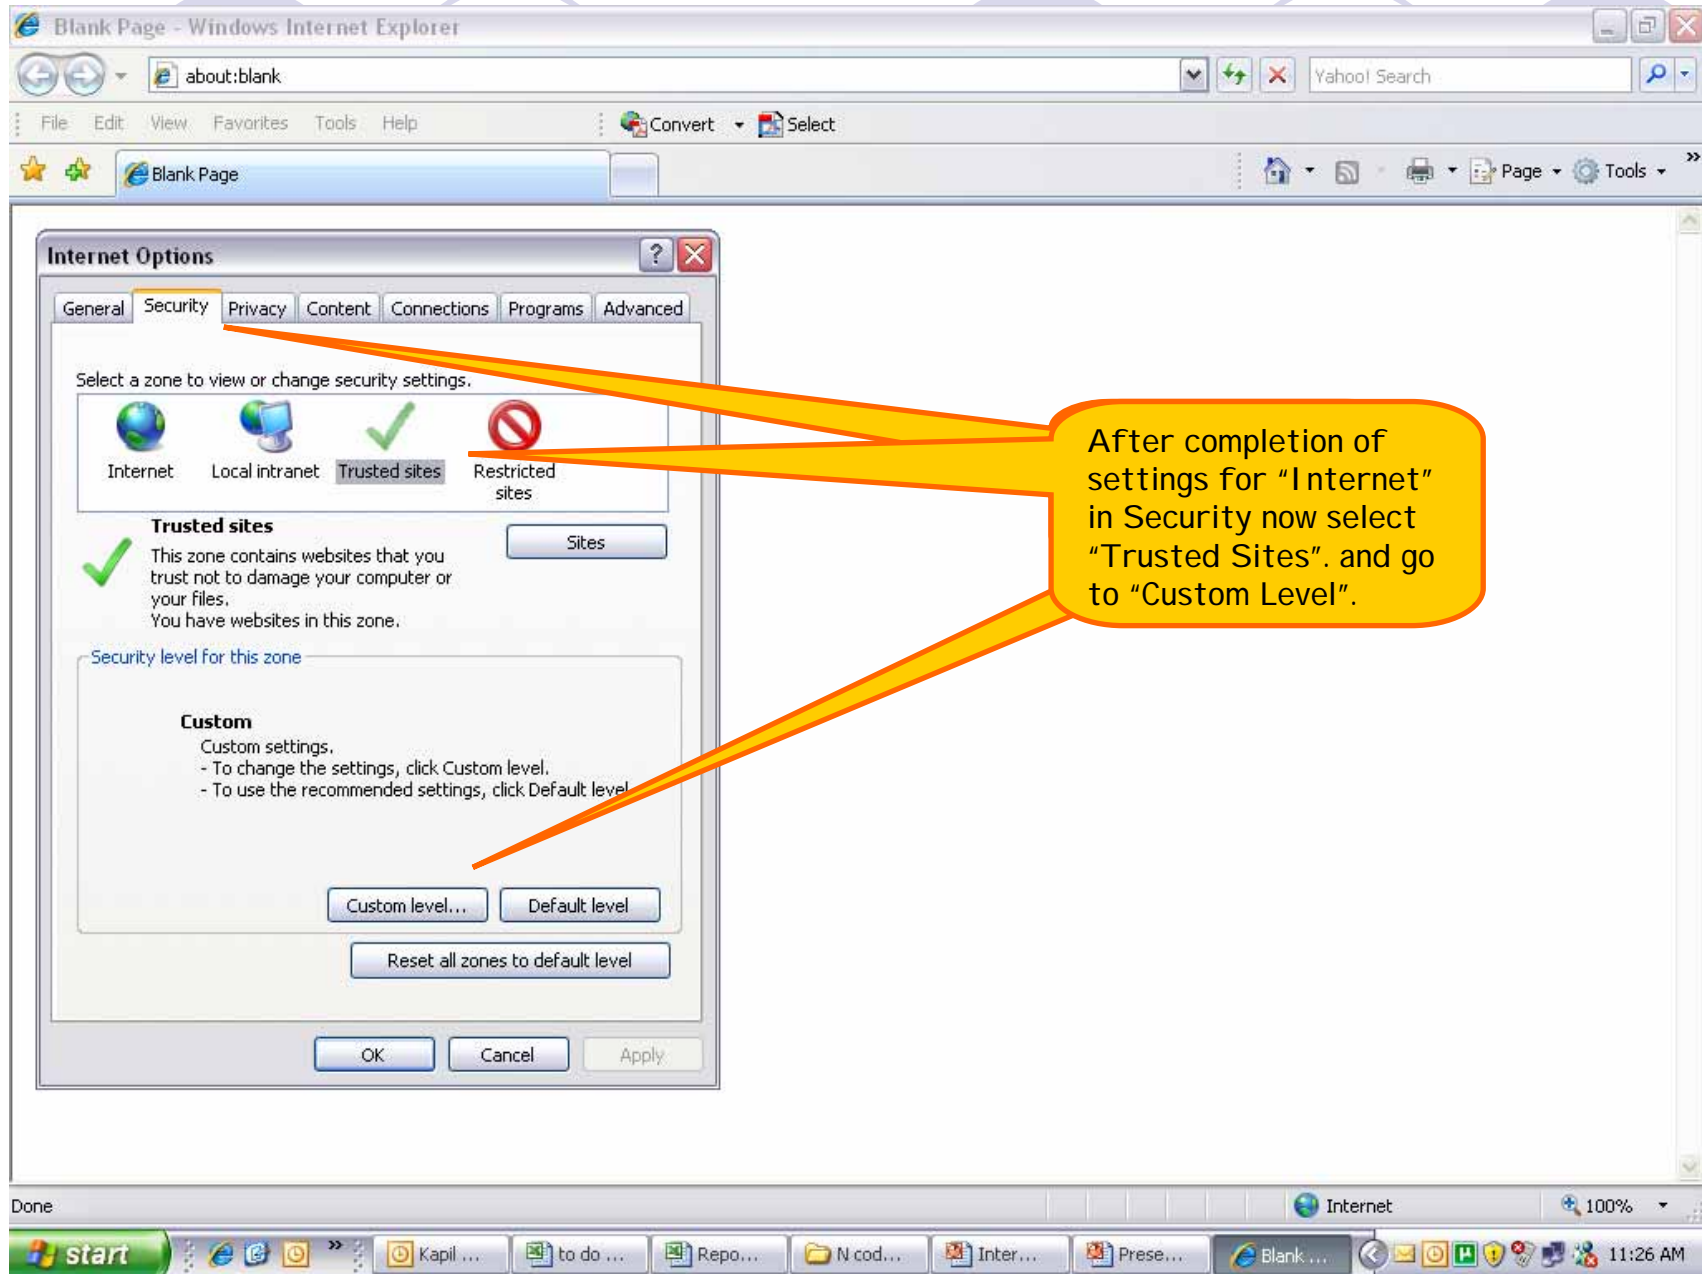

Click on "Security" then select "Internet" and go to "Custom Level".

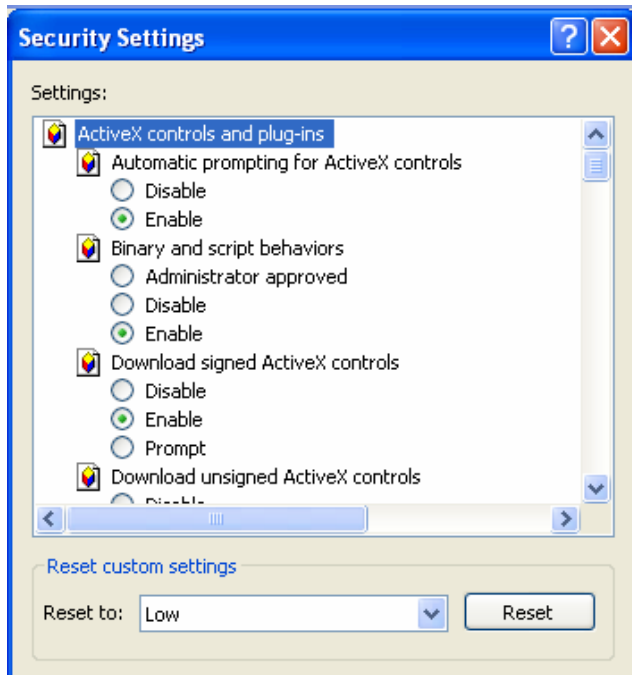

- As you click on the “Custom Level” many options will be displayed, some of which are to be set.
- Among all options only “Activex controls and plug-ins” has to set which can be seen in given two images and mention below details.
- After selecting all the options of Activex controls & plug-ins, select “Medium” in reset custom level, click on “OK and then YES”.

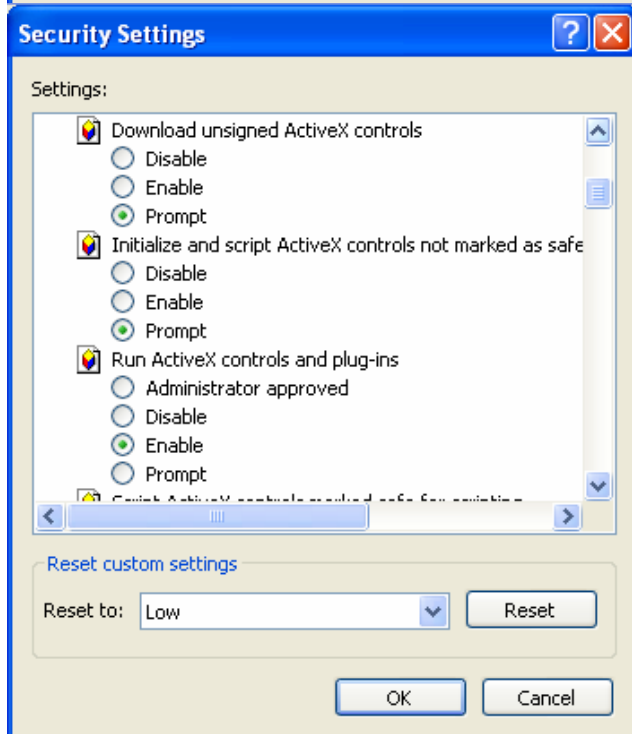

1. Automatic prompting for Activex controls – **Enable**
2. Binary and script behaviors – **Enable**
3. Download signed Activex controls – **Enable**
4. Download unsigned Activex controls – **Enable**
5. Initialize and script Activex controls not marked as safe for scripting – **Enable**
6. Run Activex controls and plug-ins – **Enable**
7. Script Activex controls marked safe for scripting* – **Enable**

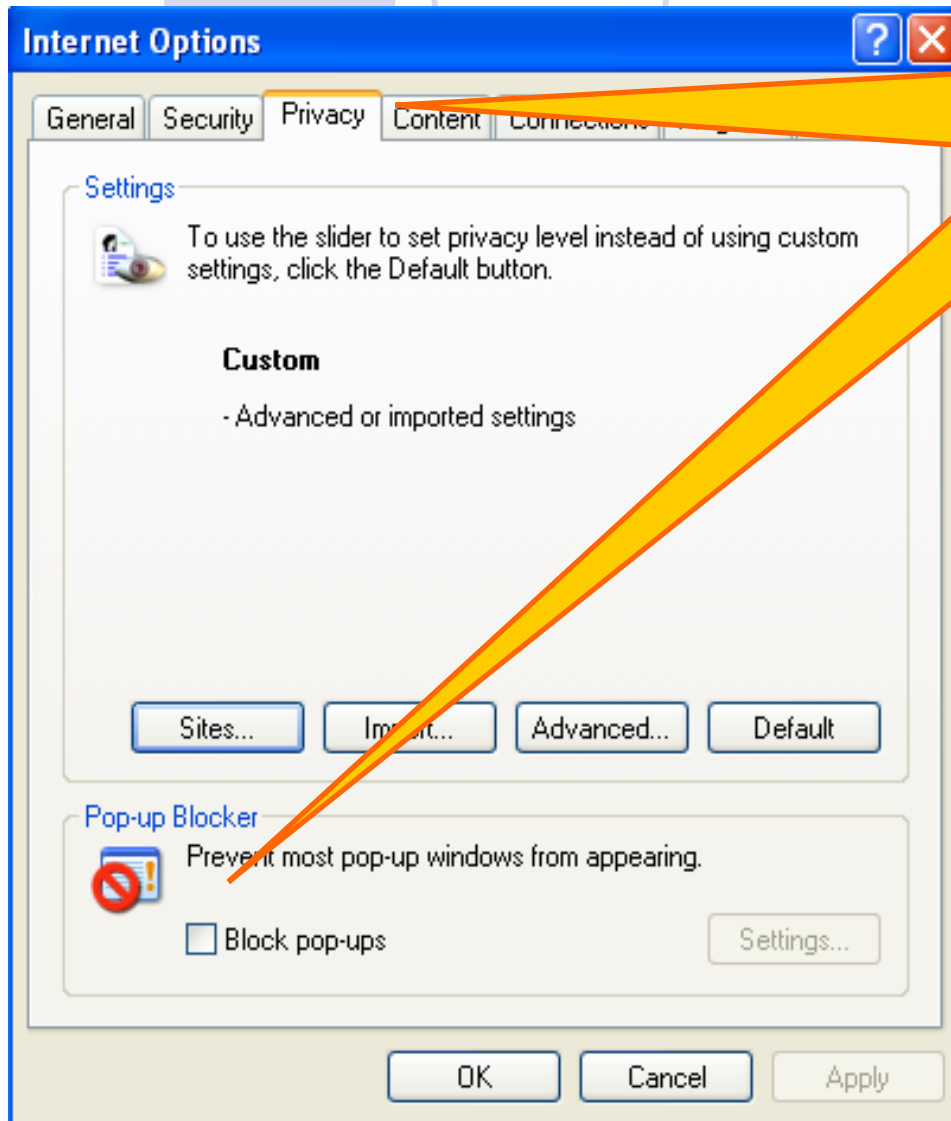

After completion of settings for "Internet" in Security now select "Trusted Sites". and go to "Custom Level".

- As you click on the “Custom Level” many options will be displayed, some of which are to be set.
- Among all options only “Activex controls and plug-ins” has to set which can be seen in given two images and mention below details.
- After selecting all the options of Activex controls & plug-ins, select “Medium” in reset custom level, click on “OK and then YES”.

1. Automatic prompting for Activex controls – **Enable**
2. Binary and script behaviors – **Enable**
3. Download signed Activex controls – **Enable**
4. Download unsigned Activex controls – **Enable**
5. Initialize and script Activex controls not marked as safe for scripting – **Enable**
6. Run Activex controls and plug-ins – **Enable**
7. Script Activex controls marked safe for scripting* – **Enable**

After Security setting, now click on "Privacy" and uncheck "Block Pop up" option.
Now restart the "Internet Explorer" and start your work.

THANK YOU...
